

FLEET TRADES®

Aluminium Canopy and Base

Constructed from aluminium our canopy body with dedicated base contours to the shape of the vehicle cabin and provides a strong, durable body and a look that complements the cabin of the vehicle. These units are designed to fit all light commercial vehicles from Dual to Single Cab Utes and are ideal for all sorts of tradesman that require a lockup, secure solution for all their valuable tools.

The base on which our canopies are mounted are constructed in a similar manner to our Heavy-Duty Aluminium Trays (hybrid of zinc plated mild steel surrounds and aluminium planks) which gives a high strength and vast reduction in the overall weight of the body.

Features

- › 3 lengths - 1800, 2100 and 2400mm x 1900mm wide. Suits dual, extra and single cab vehicles.
- › Single unit white powder-coated base, with heavy-duty aluminium floor.
