

# Heavy Duty Steel Tray Body

Steel Tray bodies are like all our products, built to a heavy-duty specification to ensure they can handle the rigors of day to day use. Designed for the fleet operator, tradesman, courier, camping enthusiast, or anyone else that requires a good looking and practical solution to their tray body needs. These units are designed to fit all light commercial vehicles from Dual to Single Cab Utes.

Fabricated using galvanised and mild steel our steel tray bodies have a fully welded base and supplied in a standard powder coated finish of white or charcoal, which ensures the strength and durability and with the following list of standard features it is unsurpassed for value and quality.
