

# Heavy Duty Aluminium Tray Body

Aluminium tray body is built to a heavy-duty specification to ensure they can handle the rigors of day to day use. Designed for the fleet operator, tradesman, courier, camping enthusiast, or anyone else that requires a good looking and practical solution to their tray body needs. These units are designed to fit all light commercial vehicles from Dual to Single Cab Utes.

Fabricated using a hybrid of aluminium and powder coated/zinc mild steel, we ensure that our HD aluminium tray will provide the strength needed that surpasses any of the competition. With the following list of standard features, it is unsurpassed for value and quality.

## Features
