

Flat Aluminium Canopy

Flat aluminium Canopies are constructed from 3mm thick flat aluminium to provide a robust, hard wearing body at a light weight. Designed to be bolted directly to an existing tray body or an optional tray base can be supplied it is suitable for all trades, plumbers, electricians, builders etc. Providing security for all your valuable tools these bodies are available in 2 lengths as standard, or we can customise to your specifications.

Our 1100mm long Flat aluminium Canopy is designed to be used with a separate dog box to fill the full tray floor or by itself with a flat tray with the addition of optional dropsides to fill the gap, which is ideal when you need to lock your tools up but require a little extra floor space.
